

Get More Customers and Sell More Replacements With CoolSaver

Program overview

The CoolSaver A/C Tune-up Program is designed to break through the market barriers that prevent residential and commercial customers from receiving high-performance A/C and heat pump system tune-ups. It also provides rebates to customers and contractors, as well as training on best practices and discounts on state-of-the-art tools for contractors.

Superior service

As a participating contractor, you are responsible for ensuring the following areas are evaluated during each CoolSaver Tune-up:

1. Measurement of indoor airflow and correction
2. Cleaning of outdoor condenser coils
3. Inspection of indoor coil and cleaning
4. Inspection of indoor blower and cleaning
5. Assessing refrigerant charge and refilling using a digital refrigerant analyzer

CoolSaver Program Benefits

A/C contractors:

- **Help** your customers boost energy savings. We'll show you how.
- **Provide** a tune-up and earn a new customer. We'll pay for the tune-up.
- **Offer** high-efficiency replacements at a lower cost. We'll provide the rebate.
- **Impress** your customers with a CoolSaver professional tune-up. We'll train your techs.

Technicians:

- **Raise** your level of expertise.
- **Use** state-of-the-art digital tools.
- **Receive** ongoing technical training. Learn to calculate the BTU output of each CoolSaver Tune-up.
- **Learn** to master precision refrigerant adjustment techniques.

Customers:

- **Enjoy** a more comfortable indoor environment.
- **Gain** better humidity control.
- **Understand** the value of continuing maintenance.
- **Increase** system efficiency.

Eligible Customers	
Residential	Commercial
Single-family homes (every A/C or heat pump)	School districts (k-12), private schools
Condos	Technical and community colleges
Multifamily apartments	Factories, manufacturing facilities
Housing authorities	Large malls, strip malls, convenience stores
Property management firms	Large and small commercial spaces (offices, banks)

To learn more, visit aeptexasefficiency.com or contact us at 512-399-8842 or aeptx.coolsaver@clearesult.com.

All components must be accessible to qualify. If they are not accessible, the equipment is ineligible for incentives. Other program requirements and restrictions may apply. Customer is responsible for cost of refrigerant. Contractor will provide a quote for replacement refrigerant to be approved by customer prior to refilling.

An AEP Company

Incentives

Commercial A/C tune-ups:

Incentives are based on system size.

Tonnage	Incentive
1.5 – 2.5 tons	\$100
3 – 5 tons	\$150
6 – 10 tons	\$185
11 – 15 tons	\$210
16 – 25 tons	\$350
26 – 30 tons	\$500
31 – 50 tons	\$800
51 – 80 tons	\$1,400
80+ tons	\$1,700

Residential A/C tune-ups:

Incentives are based on system size.

Construction Type	Tonnage	Incentive
Single-family and Multifamily	1.5 tons	\$100
	2 tons	\$115
	2.5 tons	\$120
	3-5 tons	\$150

Residential A/C replacements:

Incentives are based on system size and efficiency.

Tons	SEER		
	16	17	18
1.5	\$120	\$180	\$240
2.0	\$160	\$240	\$320
2.5	\$200	\$300	\$400
3.0	\$240	\$360	\$480
3.5	\$280	\$420	\$560
4.0	\$320	\$480	\$640
5.0	\$400	\$600	\$800

Add an additional 50% if A/C system size is reduced by at least 1/2 ton.

If the A/C replacement is an early replacement of operational equipment, add \$25.
