

With a CoolSaver A/C Tune-up, you'll:

- Extend the life of your unit
- Be more energy efficient
- Enjoy a cooler indoor environment
- Improve humidity control
- Save up to \$150 toward the cost of a tune-up

Why do we do it?

Dirty A/C components, including filter, evaporator and blower, cause the system to work harder. This can cause reduced system efficiency, shorter equipment life, reduced comfort and poor indoor air quality.

Schedule your CoolSaver A/C Tune-up today to improve the efficiency of your A/C system and increase your indoor comfort.

CoolSaver

Air conditioning system not working as efficiently as it should? Tune it up!

A CoolSaver A/C Tune-up can improve the cooling output and efficiency of your air conditioning unit.

Plus, you can receive an instant discount, offsetting the cost of the tune-up.

Schedule your CoolSaver A/C Tune-up today and learn how the CoolSaver Program can help you save.

You Have the Power To Use Energy More Efficiently

Optimize your cooling and your savings with a CoolSaver A/C Tune-up.

During a CoolSaver A/C Tune-up, your technician will:

1. Measure indoor airflow and correct
2. Clean outdoor condenser coils
3. Inspect indoor coil and clean
4. Inspect indoor blower and clean
5. Assess refrigerant charge and refill using a digital refrigerant analyzer*

All components must be accessible to qualify. If they are not accessible, the equipment is ineligible for incentives. Other program requirements and restrictions may apply. Customer is responsible for cost of refrigerant. Contractor will provide a quote for replacement refrigerant to be approved by customer prior to refilling.

Notice the difference between dirty coils and clean coils after a CoolSaver A/C Tune-up:

How does it work?

A program-qualified technician will identify ways to improve the efficiency of your A/C, implement any recommended improvements and apply an instant discount toward the upgrades.

Our state-of-the-art diagnostic tools and procedures will result in cooler air inside your home or building, increased A/C performance and lower energy use.

Who is eligible?

AEP Texas residential and commercial customers in south Texas are eligible if you have a central A/C or heat pump* that is:

- Up to 5 tons (for residential customers) or up to 80+ tons (for commercial customers)
- Currently operational
- At least one year old

Customers who have received a CoolSaver A/C Tune-up in the past five years are not eligible.

*Window, geothermal and chiller units are not eligible.

Incentives

Commercial A/C tune-ups

Incentives are based on system size:

Tonnage	Incentive
1.5 – 2.5 tons	\$100
3 – 5 tons	\$150
6 – 10 tons	\$185
11 – 15 tons	\$210
16 – 25 tons	\$350
26 – 30 tons	\$500
31 – 50 tons	\$800
51 – 80 tons	\$1,400
80+ tons	\$1,700

Residential A/C tune-ups

Incentives are based on system size:

Construction Type	Tonnage	Incentive
Single-family and Multifamily	1.5 tons	\$100
	2 tons	\$115
	2.5 tons	\$120
	3 – 5 tons	\$150

Residential A/C replacements

Incentives are based on system size and efficiency:

Tons	SEER		
	16	17	18
1.5	\$120	\$180	\$240
2.0	\$160	\$240	\$320
2.5	\$200	\$300	\$400
3.0	\$240	\$360	\$480
3.5	\$280	\$420	\$560
4.0	\$320	\$480	\$640
5.0	\$400	\$600	\$800

Add an additional 50% if A/C system size is reduced by at least 1/2 ton.

If the A/C replacement is an early replacement of operational equipment, add \$25.
