

# SCORE® Program

AEP Texas (Central Division)

## 233 more teachers or 312,548 more books for students\*

### This is how the AEP SCORE Program impacts Texas schools.

Energy is one of the largest operating expenses for a school. With an expanding student population, aging facilities in need of modernization and a demand to create new educational services for students, every dollar counts. The AEP Texas (Central Division) SCORE Program is here to help reduce operational costs so that every dollar saved is available to help Texas students prepare for brighter futures. The SCORE Program gives schools the technical and financial resources necessary to reduce energy spending and direct more of their budgets to students and teachers.

Based on your individual needs, the program will provide customized assistance, such as:

- **Incentives** of \$150/kW and \$200/kW for lighting, HVAC and other qualifying energy efficiency improvements that reduce peak electric demand in both new construction and retrofit projects
- **Energy performance benchmarking** to discover where your building is wasting energy
- **Energy master planning workshops** to familiarize you with energy management best practices that maximize long-term savings
- **Financing assistance** to connect you with low- and no-cost energy efficiency projects
- **Technical assistance** to identify efficiency opportunities that are tailored to your business needs
- **Communication expertise** to publicize your energy efficiency accomplishments in your community

An AEP Company

The benefits of increasing efficiency are endless. Call us today to get started.

\*Based on the lifetime energy savings of equipment installed and total incentives earned by Texas educational partners, average textbook cost and teacher salary. Data from AEP Texas (Central Division) SCORE Program as of December 2024.

# The process is simple

---

## Sign up

- Sign the Memorandum of Understanding to enroll your organization in the AEP Texas (Central Division) SCORE Program.
- This authorizes CLEAResult to perform an on-site walkthrough and pay the incentive upon project completion.
- CLEAResult receives a W-9 and electric bill for the participating facility.

## Evaluate

- CLEAResult performs a pre-installation inspection to document and evaluate existing equipment.
- Only equipment that is pre-inspected prior to removal may be included in the project.

## Define

- CLEAResult provides recommended projects, paybacks and preliminary incentive calculations for you to consider.
- Define the scope and timeline of the project in an incentive application.
- NOTE: There is no guarantee that incentive funds are available upon project completion without a signed incentive application.

## Complete

- The partner completes the project with either an outside contractor or in-house staff.
- The partner notifies CLEAResult upon project completion.

## Inspect

- CLEAResult performs a post-installation inspection to document and evaluate the newly installed equipment.

## Enjoy

- AEP Texas (Central Division) issues the incentive check within four to six weeks.
- Collect your incentive and enjoy long-term savings.
- NOTE: The incentive check is a live check made out to the attention of the person who signed the MOU — it is not a discount on the monthly bill.

## AEP Texas (Central Division) incentive table

- Air compressor: **\$150/kW**
- Air infiltration — fixed fee: **\$10/door sweep, \$20/weatherstrip**
- Commercial kitchen: **\$150/kW**
- HVAC — chiller: **\$200/kW**
- HVAC — DX: **\$150/kW**
- LED lighting: **\$200/kW**
- Refrigeration: **\$150/kW**
- Roofing: **\$150/kW**
- VFDs on VAV on AHU: **\$150/kW**
